We offer two kinds of COVID-19 Testing

Por favor indica qué tipo de prueba necesita, ofrecemos dos tipos de prueba

a) Antigen test: This is rapid COVID-19 test and detects certain proteins in the virus (www.mayoclinic.org).

The result can be ready for the same day or for the next day depending on the volume of patients. If you need an urgent result, it can be ready between 30 mins to 2 hours. The sample for this Antigen Test is a nasopharyngeal swab. It does not need any kind of special preparation or requirement.

B) RT-PCR Test: This is also called a molecular test, this COVID-19 test detects genetic material of the virus intended for the qualitative detection for the SARS-CoV-2 virus (www.mayoclinic.org).

The result can be ready for the same day depending on the volume of patients or for the next day. If you need an urgent result, it can be ready between 4-5 hours. The sample for this PCR testing is a nasopharyngeal swab. It does not need any kind of special preparation or requirement.
